

OMITIDE! WATER HAS COME!

4TH QUARTER NEWSLETTER - 2023

Dear Sponsors, Friends, and Supporters of OMITIDE,

We would like to wish you the very best this New Year 2024. We hope that this newsletter will help and motivate you to create sustainable solutions to problems facing your community.

At OMITIDE, we ensure our interventions offer sustainable solutions to water problems so that our beneficiaries can have and live a better life. All our interventions are tailored in a coordinated and comprehensive manner guided by our vision and mission. We are therefore happy to take you on a short, interesting tour of our activities during the fourth and last quarter of 2023.

We appreciate your support and sponsorship that led to the birth of OMITIDE! Once again, we wish you the very best in the year 2024.

Thank you!

KANTHARI TRAINING

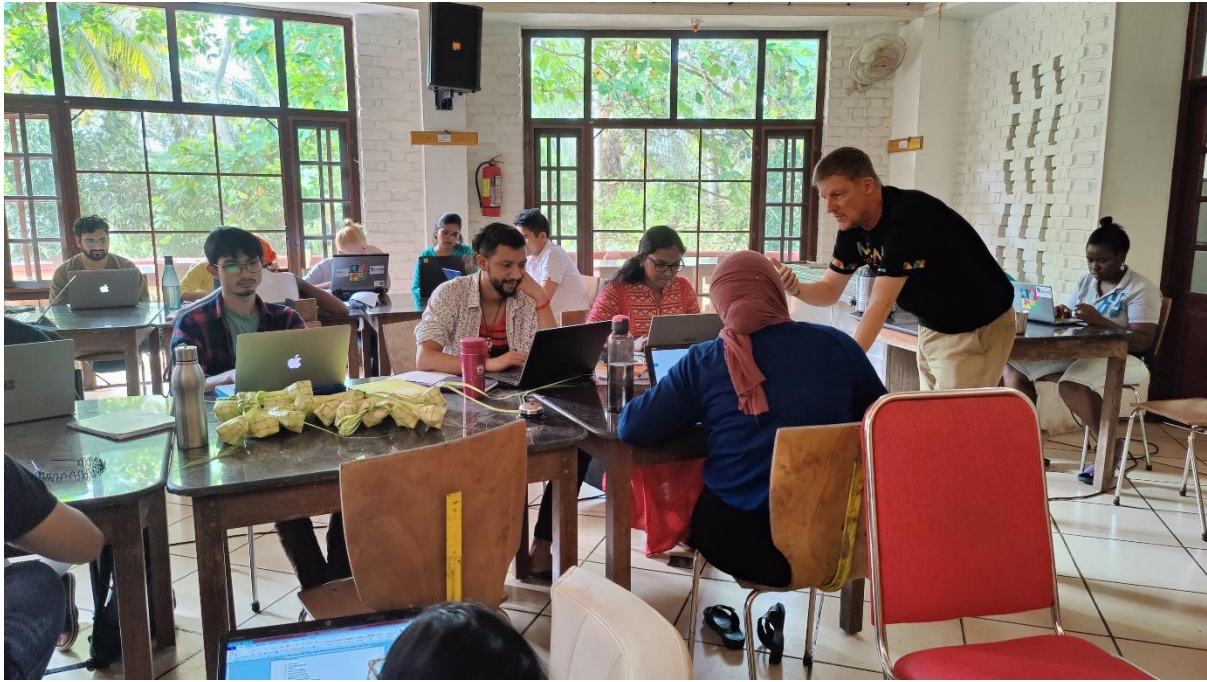

Being one of the 22 participants from 11 countries who attended the 2023 kanthari leadership course was a great privilege.

The intensive training that started online in April and on the campus in May 2023 was tasking, demanding, and fun-filled with the help and mentorship of committed and experienced catalysts.

kanthari is an international leadership training institution for social change makers located in Vellayani, Trivandrum, Kerala. It offers a training program that equips change-makers who have overcome adversity with all the tools and skills required to start their own impactful social/environmental organization. www.kanthari.org

The experiential learning was an eye-opener to the problems in various countries and communities and how they can be solved in line with the vision and mission of our organizations.

Living on the kanthari campus for 7 months was an opportunity to mingle and learn from my fellow participants.

INTRODUCING OMITIDE! WATER HAS COME!

Growing up as a child, I experienced what it means not to have enough water. For farmers and people living in rural communities, this is a daily routine. This gave me the passion to solve this problem and I applied to Kanthari. During the training at Kanthari, our organization, OMITIDE! which means WATER HAS COME! was birthed on the 7th of July 2023.

Our focus is on the provision of clean drinkable water for people in rural communities and irrigation systems for farmers.

Our approach is to create access to water through rainwater harvesting into reservoirs and ponds for household and agricultural use.

We intend to achieve this through watershed management with the ultimate goal of increasing the level of groundwater and food security.

4TH QUARTER TRAINING ACTIVITIES

SPREAD THE SPICE EXHIBITION

SPREAD THE SPICE Exhibition 2023 was a 3-day festival organized by kanthari and the 2023 participants. The event which took place from the 13th to the 15th of October in Trivandrum, Kerala was attended by social organizations, government

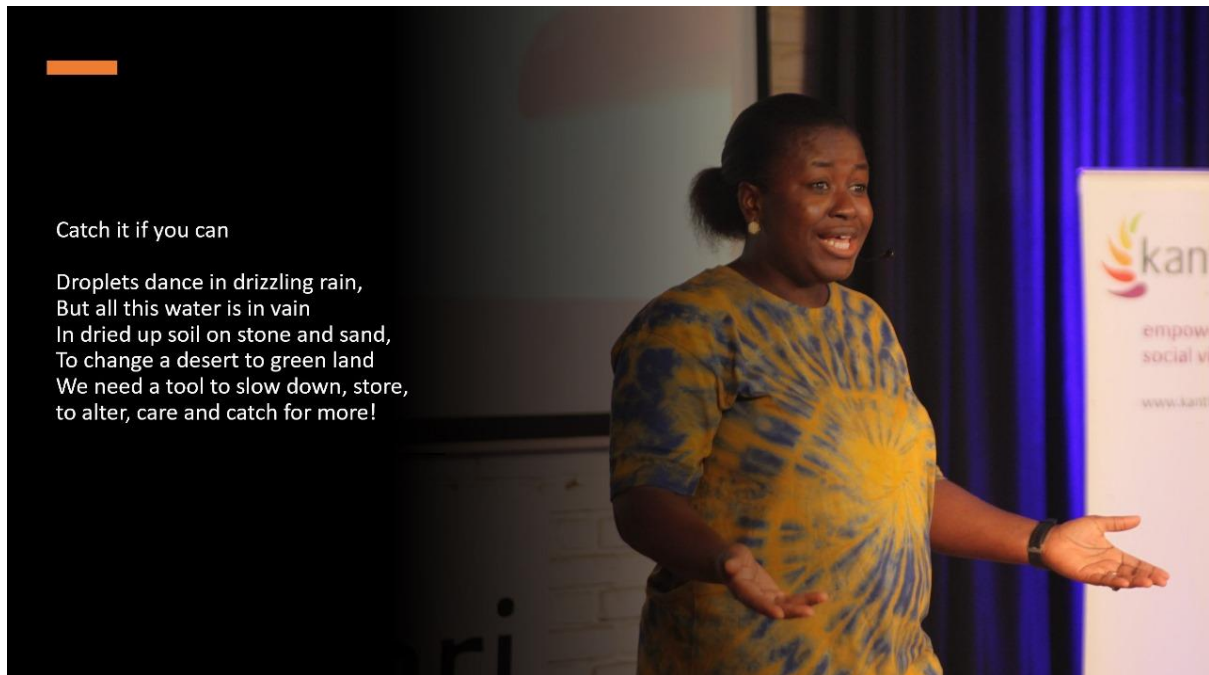

officials, and students.

OMITIDE! had a stall at the exhibition where we introduced our organization to our guests and educated them about communities with water scarcity in Nigeria and how OMITIDE wants to solve the problem.

THE KANTHARI TALKS

kanthari talk is a yearly event that marks the end of the training. The talk is an avenue for the participants to tell the world about our life stories, the problems we want to solve, and our solutions. The event took place on the 15th and 16th of December with online and onsite audiences. There I shared my experience of struggling to access water and discovering that people in rural communities and farmers still go through the same challenge. I also talked about how OMITIDE will be making use of the word ACCESS as a tool to solve the problem of water scarcity in rural communities. The talk was followed by a question and answer session by 3 panelists. To watch the event, you can visit www.kanharitalks.org.

CERTIFICATION

Certificates were issued for participation in the entrepreneurship and social aspects of the training.

STARTING 2024

The kanthari training is a journey of 5 Acts, in which Act 5 will commence from January to April 2024 and the following activities will take place:

- Selection/Appointment of board member.
- Registration of OMITIDE with the Corporate Affairs Commission of Nigeria.
- Sensitization of farmers and people in rural communities on water management with rainwater harvesting kits to 50 participants.
- Implementation of a pilot project. (Construction of watershed management techniques in one community)

YOUR DONATION WILL PUT SMILES ON THE FACES OF OUR BENEFICIARIES!

Dear Supporters and Friends,

The water problem is a global challenge. OMITIDE! is starting from Nigeria and even at that, we can't do this alone without your support.

You can support us by donating via the link below:
