

OMITIDE! WATER HAS COME! NEWSLETTER

3RD QUARTER

 **JULY – SEPTEMBER 2025**

Installing Irrigation Kits on a beneficiary's farm

OUR VISION

We envision a country where clean drinkable water is at everyone's reach.

OUR MISSION

We aim to accomplish this goal by employing innovative rainwater harvesting methods, watershed management, and construction of water recycling systems in collaboration with people in rural communities.

Our Dear Donors, Partners, Friends, and Supporters of OMITIDE

The year 2025 is gradually coming to an end and we're super grateful for all we have done through your sponsorship and support.

We're happy to share with you the third quarterly newsletter of 2025 with updates from our rainwater harvesting and irrigation kits distribution, our beneficiaries' vegetable farm, Omitide's demo farm, founder's BRACE program, and office building.

Thank you for your continued support!

CONTINUED RAINWATER HARVESTING AND IRRIGATION KITS DISTRIBUTION

Rainwater Harvesting and Irrigation kits were distributed to some tomatoes farmers who struggled to keep their tomatoes farm surviving and almost lost their tomatoes farm to water stress as a result of lack of water.

Installation of irrigation kits

Rainwater harvesting kits

Beneficiaries on their tomatoes farm

Irrigation kits being installed by Omitide's team

BENEFICIARY'S VEGETABLE FARM

Our vegetable farmers planted okra (ladies finger) and pumpkin leaf that are already sprouting.

Sprouting Okra farm

OMITIDE'S DEMO FARM

As part of our commitment to groundwater conservation and income generation for sustainability, some cocoa seedlings were donated to Omitide by Springboard and more were purchased to make up 50 cocoa seedlings that were planted on the same demo farm.

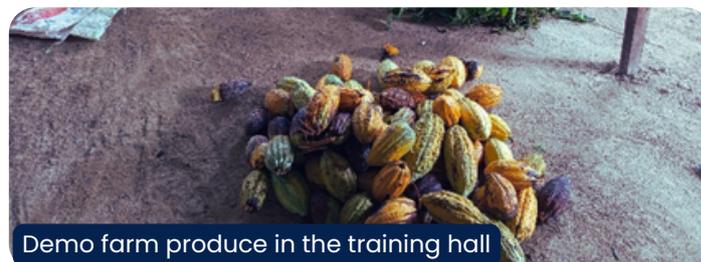

50 Cocoa (Cacao) seedlings planted

Harvesting demo farm pumpkin leave

Demo tomatoes farm at fruiting the stage

Demo farm produce in the training hall

Farm produce were harvested and sold for income generation.

Demo farm tomatoes

Harvested tomatoes from the demo farm

FOUNDER'S BRACE PROGRAM

The founder of Omitide was selected to participate in the Building Resilience Against Climate and Environmental Shocks (BRACE) Program by the African Food Changemakers. It was an eye-opening and impactful online training on Climate Change Adaptation and Mitigation. The training called our attention to some of our agribusiness activities that were contributing to climate change in farming, production, processing, packaging, and distribution. We learnt how to mitigate and adapt to climate change through climate-smart agriculture, how to reduce carbon emissions, and gain access to carbon credits. The learnings from this training are being factored into our daily activities.

The journey broadened my perspective on sustainability, resilience, and innovation covering circular economy principles and design thinking strategies with networking and exposure to donors.

OMITIDE'S OFFICE BUILDING

Roofing of the building

Electrical conduits have been installed in the building.

The building was roofed, with electrical and plumbing pipes installed. Aluminum windows were also produced, but they need to be fixed during the plastering of the interior. The roofing made the building usable to some extent but not to the full capacity, as a lot still needs to be done.

Below are the things needed to complete the building for maximum utility:

Your paragraph text

1. Fixing of doors and window burglaries.
2. Wall plastering and fixing of aluminum windows.
3. Installation of electrical wires and fittings.
4. Installation of toilet and washroom fittings.
5. Fixing of external plumbing pipes and fittings.
6. Digging of wastewater drainage.
7. Fixing of ceilings
8. Tiling
9. Fencing of property with a security house.
10. Rainwater harvesting system.
11. Water Recycling System.
12. Landscaping
13. Painting.

"Upcoming."

- Monitoring and evaluating the rainwater harvesting project
- Fundraising for the completion of our office building.
- Fundraising for water management training.
- Expansion to other communities.

YOUR DONATION WILL PUT SMILES ON THE FACES OF OUR BENEFICIARIES!

Dear Sponsors, Supporters
and Friends,
We are grateful for your
support so far. We need more
of it for the next phase to
achieve greater impact.
Thank you also for helping us
by sharing this newsletter with
those who might be interested
in your network.

**With Best Regards,
Itohan Iyawe Ogiemudia and
the entire Omitide Team**
